

AquaFlex Unveils Their New Website

AquaFlex announced the arrival of a new website on January 2, 2009. Click [here](http://www.aquaflexusa.com) to go to the new site: <http://www.aquaflexusa.com> (the URL is the same as the previous site). The following is a list of some impressive features of the site:

HOME PAGE: New look, featuring the new 1-Bee bracket and logo for instant recognition, with easy navigation to rest of the site.

AQUAFLEX CHALLENGE VIDEO: Contains multiple versions of both the Challenge and the full video, including online streaming and downloadable versions for both Mac & Windows, and an email friendly version. It clearly demonstrates the *1:43 real-time* installation process and highlights the incredible selling features of the AF 1-Bee system. **Seeing is believing.**

MEET YOUR SALES REP: A place where customers can put a face to the name and voice, containing a brief blurb of territories and info.

CALCULATOR: A helpful tool for figuring cost and savings on the AF system vs. traditional black pipe.

PRODUCT INFO & PRICING: All the info you will need on parts, descriptions, sizes, cost etc.

LITERATURE & TECH DATA: Downloadable and printable PDF versions of AF's current literature and technical data sheets, including the 1-Bee2 and RoboSeal.

PHOTO GALLERY: A nice place to see pictures of current events and distributors.

FAQs: A few typical questions and answers concerning the AF system.

DISTRIBUTORS: Contains a distributor map and a full listing in order by state.

HELPFUL LINKS: Helpful information including Certification, Installation instructions & Specifications. This page also contains links to AFSA, NFSA & NFPA, as well as an *Administrative* section which we are currently working on.
